## Schulthess Maschinen AG acquires Permotech AG

Wolfhausen, 1 October 2020 – With effect from 1 October 2020, Schulthess Maschinen AG – Switzerland’s leading manufacturer of commercial and industrial machines, based in Wolfhausen (ZH) – is acquiring Permotech AG’s business operations. Permotech AG is the global leader in dispensing technology for the liquids and chemicals used in laundries, launderettes and car washes.

For Schulthess, a well-established company based in the Zürcher Oberland area, the takeover is the next strategic step towards offering customers genuine gain in the form of more benefits from a single source. Synergising high-performance machines and laundry service solutions with innovative dispensing technology will make Schulthess an attractive partner on a global scale, offering perfection, efficiency and sustainability in washing technology.

The production for Permotech AG will be relocated to the Schulthess headquarters in Wolfhausen ZH.

### **Go clean, go green: Schulthess’ commitment to sustainability**

“Go clean, go green” is Schulthess’ mission statement for consistent sustainability. Permotech AG is equally committed to this cause; its dispensing technology and systems effectively reduce the amount of chemicals and laundry detergent required.

With the takeover of Permotech AG, Schulthess Maschinen AG – as Switzerland’s market leader in the commercial segment – will strengthen its market position and demonstrably inject new life into the market with innovative products and services.

Wolfhausen, 1 October 2020
