 **SCHULTHESS**

Flow – professional liquid detergents

- Together with our appliances, the new Flow liquid detergents ensure perfect washing results.
- Fat solvents, stabilised oxygen bleaches, neutralising agents, detergents for delicates and colours, textile finishers or fibre protection and impregnation are perfectly coordinated.
- And best of all: We deliver our Flow line directly to your door.

Reliable and built to a high standard

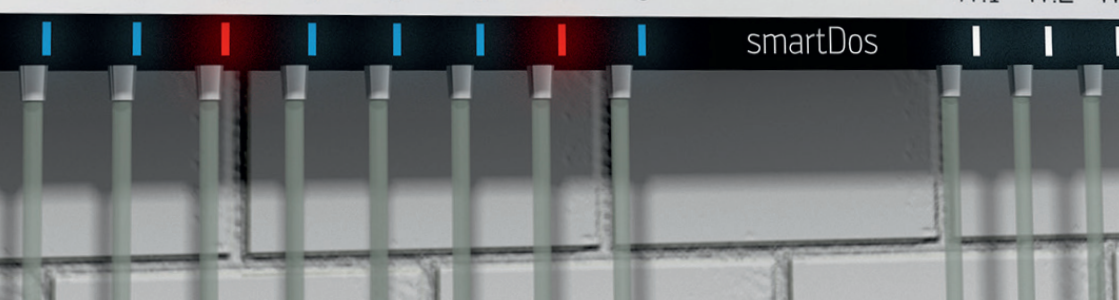

All dosing systems are made of high-quality materials and are therefore all but maintenance-free. The CPU and the control monitor are operated independently of each other. This ensures that the fabric cleaning system functions smoothly even without a control monitor.

smartDos

Clear and comprehensive control

With the Permotech liquid dosing system, you monitor your machines and processes in real time and in a centralised manner. You maintain an overview at all times and receive fully automated, detailed reporting and ongoing process documentation.

smartDos

Permotech 4DOS1, 6DOS1, 8DOS1

With the ingenious, ultra-compact dosing system, you have the perfect solution even for small laundries or dry cleaners.

profiDos

Permotech 8DOS4, 10DOS4, 20DOS5

The powerful and reliable dosing system is flexible and scalable. It is suitable for larger laundries up to washing stations.

Go clean – go green

Save time, detergent, water, energy and staff costs with Permotech from Schulthess. This fully automated dosing technology in a modular system can be fully adapted to your needs: The individual components of the liquid detergents – some of which are also in organic quality – are put together individually for your laundry and can be dosed precisely. This takes the pressure off your staff and is good for the environment.

Schulthess liquid detergent systems are designed to meet the demands of industrial and commercial fabric care. Economical, environmentally friendly and cost-effective.

Let our laundry professionals advise you!

We advise you both quickly and professionally.

Which washing solution or appliance best suits you and your needs? With our experience, we will support you professionally and advise you quickly.

We will gladly
advise you!
