

Detergent

FLOW bleach agent

Ecological oxygen-based bleach

Product No

E522853

Properties

- ideal oxygen carrier in washing suds
- absolutely residue-free decomposition
- optimal additive for all detergents
- uniform release of oxygen due to special stabilisers
- can be used as an antichlor

Application

pre-wash cycle: 2 ml/kg of dry goods

If necessary, add 2–3 ml/kg of dry goods to the boil wash cycle.

Do not mix with chlorine-containing agents.

Can be used as an antichlor: 5 ml/kg of dry goods

FLOW bleach agent is used as an oxygen bleach. Please refer to the product information for the dosage and washing recommendations to be applied to meet the environmental criteria.

Technical data

Density (20°C) 1.13 g/ml

pH value (conc.) 1.5–2.5

Notes

Storage:

Store only in the original container and protected from heat and moisture. After removal of partial quantities, the container should be resealed. The product can be stored for at least 12 months in the sealed original container.

For commercial use only. This leaflet is for non-binding information only. The information is based on our current knowledge and experience.
