

Detergent

FLOW eco neutralizer

Ecological neutralising agent based on citric acid

Product No

E522855

Properties

- ensures reliable neutralisation – regardless of water quality
- leads to stable, neutral pH values in the laundry
- prevents the formation of yellow stains, even when stored in damp conditions
- the product is free from unpleasant odours
- is suitable for all washing processes

Application

Add 0.5 to 2.0 ml/kg of dry laundry to the last rinse bath, depending on the alkalinity of the washing process.

FLOW eco neutralizer is used as a neutralising agent. Please refer to the product information for the dosage and washing recommendations to be applied to meet the environmental criteria.

Technical data

Density (20°C) 1.23 g/ml
pH value (1%) 2.0–3.0

Notes

Storage:

FLOW eco neutralizer is not sensitive to frost, but should not be exposed to temperatures below 0°C for extended periods. After removing partial quantities, reseal the container. The product can be stored for at least 24 months in the sealed original container.
