

Special finishing agent for the wetClean process

Product No

E522856

Properties

- effectively reduces matting of wool and fine animal hair
- reduces susceptibility to creasing
- maintains the ability to iron fabrics
- retains residual moisture in the fibres
- the built-in odour absorber ensures long-lasting freshness

Application

FLOW wetClean is a special finishing agent for the wetClean process. Depending on the process and type of fabric, 2 to 8 ml/kg are used.

Technical data

Density (20°C) 1.05 g/ml

pH value (1%) 4.4–5.2

Notes

Storage:

Storage should be away from frost, although the solidified product can be reused without loss of quality after thawing. The product can be stored for at least 24 months in the sealed original container.

For commercial use only. This leaflet is for non-binding information only. The information is based on our current knowledge and experience. The user is in any case obliged to carry out his/her own tests and trials to check the suitability of the products for his/her intended processes and purposes. The information in this data sheet does not constitute a guarantee for the quality and durability of the goods to be supplied by us. We reserve the right to make technical changes within the scope of what is reasonable. The relevant EU safety data sheet in the current version must also be observed.
